

## **LESSON LEARNED**

**Project Name:** Online Cemetery Mapping and Information System

**Project Manager:** Geyson Paclar

**Project Dates:** November 12, 2019 – March 11, 2020

Our knowledge has been broad by learning this project. We gain more experienced and how to cooperate as a team. We learned how to handle not only oneself but to my co-team as well. We learned how to be a responsible person on what our designated task within the team. Be on time and learn to do the things what had been given to ourselves. Although, its very difficult for us on how to handle this kind of project but if we work as a team, everything will be impossible. We have considered to share one's idea. Working as a team is very important to make our work better and understandable.

Therefore, studying and making this project plays an important role nowadays in our lives. We consider it for us, as growth of our character to handle a certain project.
